RAILWAYS IN THE LEAD

Holding the Foremost Post in an Advancing Market.

Transactions in Large Volume at the Opening of Operations in Wall Street-Stocks Impelled to Active Strides by Various Favorable Developments During the Week.

New York, Aug. 18.-With the exception of a few stocks affected by particular cirunstances the whole stock market moved up rapidly at the opening of business with the dealings in very large volume. Local speculative sentiment was much encouraged by the very large advances reported in the American division of the London market and the higher range of Lanston Mantoype, 10@17 1-2. American prices there was followed by renewed purchases of stocks here by arbitrage hold-ers. The railway list again occupied the foremost position in the dealings, notably for the middle grade stocks.

Those were exceedingly heavy transac-tions in Southern Railway preferred, Mis-sourf Pacific, Southern Pacific, Louisville and Naturelle Noethern and Union Pa-

and Nashville, Northern and Union Pa-cific, and the granger stocks were also notably strong and active in the opening dealings. Burlington and Quincy, in which instance the books closed this. morning, received its dividend. There was fio actual new circumstances bearing upon the general railway list. Sentiment seemed to rest upon the several previously noted tavorable developments of the week, including notably the easier monetary situation.

The dealings in the industrial quarter were not particularly active were not particularly active. Sugar Re-fining was the leader in respect of activi-ty but the fluctuations were comparative-ly limited. The tone elsewhere in that quarter was fairly steady. Brooklyn Rap-id Transit was the ucive feature of the local fractions and the stock held its own in the early dealings with the trading in large volume for both accounts. Consoli-dated Gas advanced sharply on renewed rumors of a settlement of the local gas

This morning's stock market was a buoyant one, with advances in the railway list generally and excellent gains amounting to nearly a point on the average on the grangers. The spurt occurred largethe grangers. The spurt occurred large-ly in the first half hour, and after that there were slight recessions. The indus-trials were generally inactive, with no trials were generally mactive, with he advances of importance and some slight declines. The promise of the early busi-pess was good, and there were many that looked for a continuance of the strength in the afternoon. Loudon was a buyer, as it was yesterday, on account of the failure of the Bank of England to increase its dis-count rate. The clinues were active and unt rate. The cliques were active a onfident on this side in the railways, and the bears seemed to have lost courage entirely. The commission houses sent in good orders in the standard issues. Talk good orders in the large interests men-tioned in this column yesterday was heard in the Street again this morning, and this, with a general feeling that the money situation exhibits no menace, and that the New York Cotton Market. The grangers were undoubtedly the lead-ers of the upward movement. Burlington was the most buoyant of the group, sell-ing "ex" dividend 11-2 per cent, and quickly regaining the entire dividend. St. Paul wont to 123 1-4, and Atchison, pre-ferred, to 65 5-8 early in the day. Rock Island was something of a laggard, but it advanced fractionally. This strength of the grangers is looked upon with much favor by the buils who realize that it is a very difficult matter to make a booming very difficult matter to make a booming market without the help of this group, to which so many look for indications of

Gos-sip is most bullish regarding this stock on account of the rumors that the line has been operating during the past year on 45 per cent or a trifle more. It is said that there will be at least 2 per cent for the common stock as a result. The Union Pecific issues are also the subject of much favorable comment.

A dividend of 1 per cent was today de-clared on Southern Railway preferred pay-able in October. This puts the stock on a 2 per cent basis for the first time since the organization of the system. The stock was buoyant this morning, advancing nearly a point. Louisville was again one of the leaders on heavy investment and speculative buying. It went to \$1, the highest price yet attained this year and since 1892.

There was good investment buying in Norfolk and Western preferred today, as there was yesterday and the stock ad-vanced fractionally. It is now reaching into new high prices, but in the opinion of many conservative people is as yet far from selling at its intrinsic value.

There is to be another advance in th price of bituminous coal in addition to the advance of 25 and 50 cents a ton that has already occurred. Friends of the bituminous coal roads consider the prospect

American Steel and Wire, common, was somewhat weak this morning, but the talk is of a nearby boom in the stock on inside buying. It is believed that the inside selling at the announcement of the company's statement is over and that another bull campaign is near at hand. The other steel and iron stocks were stronger, though not active.

Sugar and the Tobacco issues were somewhat inactive and with a downward tendency in prices.

A Missing Child Found Dead.

Princeton, N. J., Aug. 18 .- The mystery of the disappearance of Carrie Snedeker the two-and-a-half-year-old daughter o Farmer Frederick Snedeker, of Kingston, was cleared yesterday by the finding of he body in a pool of water in a stone quarry about a quarter of a mile from her home. The little one had evidently stumbled into the hole as she toddled along. She was drowned in a foot of water. Her parents are so prostrated that they cannot make

Automobiles Against Street Cars. Cleveland, Ohic, Aug. 18.-The street Pen Argyl, while walking on the Lehigh and Lackawanna Railroad tracks at that number of about 2,000 paraded the streets car strikers and union sympathizers to the killed. He citter became of badly frightened when he saw the approaching train
that he could not move or else he committed suicide. He was off his knees when

been expected that fully 10,000 men would
be in line. A new company announced today that it would soon start a complete
system of automobile busses to rival the
street car chusonies.

CHASING A FILIBUSTER.

Captured Yaqui Supplies. Guayamas, Mex., Aug. 18,-The gunboat, ling guns, rifles, and ammunition to the Yaquis. The gunboat has not returned,

buster. had been sent to an American named Cook at Bonancita, and that it was feared that Cook had been killed and that 400 Indians were seen near Torres, is proved to be unfounded. Bonancita is eighty miles from the seat of the Yaqui riot and Torres is more than 100 miles from it. Guayamas is full of Yaquis working at

but rumor says it has captured the fill-

all sorts of occupations. Several Yaqui sloops laden with produce and manned by Yaquis arrived yesterday from the river-They report that when the troops reached Vicam Friday the town was deserted and no fight took place there. A body of Indians met the troops on the march toward the town and held them in check until the Yaquis had left the town and then they disappeared in the woods.

The main body of the Indians, including women and children, crossed on rafts to the north bank of the river, made a detour behind the troops, and escaped to the mountains. The Yaquis' loss in the skirmish was three. The horse under General Torres was shot.

The remainder of the campaign will probably consist of scouting in the mountains on the part of the troops and raids

on the Guayamas Valley ranches by the Indians.

A Rolling Mill Strike.

Trenton, N. J., Aug. 18 .- As a result of a strike of eight "roughers" in the rolling mill of John A. Roebling's Sons Company, followed by threats of other workmen to follow their example, the Roeblings yesterday closed down their rolling mill throwing 150 men out of work. F. W Roebling said last night that this branch o the works has been operated at a loss for years, and the company, which employs 3,600 men, will hereafter have this part of the work done in the West. He says advance of 25 per cent in wages deman last week was granted, and he does no know why the strike was promulgated. movement among the men to call out all the employes of the establishment is not meeting with any success.

Berry Pickers Attacked. Lansdowne, Pa., Aug. 18,-While picking blackberries in the woods near Lansdowne yesterday, Mrs. Jennie Cranson colored, who resides in West Philadelphia, was attacked by a strange man, who threw her violently to the ground. The woman who is very powerful, resented the attack, and managed to hold her assailant while she screamed for help. Just before the arrival of Constable Rementer the man escaped. Two little girls, who had also been picking blackberries in the same lot, were chased by the same person. The constable has a clew to the assatlant and
